Result document

Please analyse these specimens immediately upon receipt. If, for any reason, the samples cannot be analysed immediately, please store them in the same way as you would store a patient's sample and for the minimum amount of time possible.

Please ensure that the samples are brought to room temperature and that each vial is mixed thoroughly by inversion prior to analysis.

	236A	236B	236C	
B12				ng/L [pg/mL]
B12 interpretation				L, I, N or H
Folate				ug/L
Folate interpretation				L, I, N or H
Ferritin				ug/L
Ferritin interpretation				L, I, N or H

Mnemonic:

Scheme: **UK NEQAS for Haematinics**

Distribution: **236**

Dispatch date: **20-02-2017**

Return results: **07-03-2017**

Tick this box if you have no results at all for this distribution; you must provide a brief explanation in the comments box below.

	236A	236B	236C	
B12	452	553	652	ng/L [pg/mL]
B12 interpretation	N - Normal	N - Normal	N - Normal	L, I, N or H
Folate	5.9	2.5	10.8	ug/L
Folate interpretation	N - Normal	L - Low	N - Normal	L, I, N or H
Ferritin	29	29	29	ug/L
Ferritin interpretation	N - Normal	N - Normal	N - Normal	L, I, N or H

Project status (July 2017):

Trials at 2 laboratories (MRI and Heartlands)

2 LIMS (Telepath and Apex)

4 Schemes (General Chemistry, Steroid Hormones, Haematinics & GFR's)

Special thanks to:

Abigail Marsay - X-Labs Ltd

Adam Tonge - Manchester Royal Infirmary

Rachel Henderson – Birmingham Heartlands
