

**NPEX user group presentation
12th July 2017**

WHO WE ARE?

Werlabs is a **HEALTH TECH** company providing health analysis through blood testing.

Founded 2013 by GP Rickard Lagerqvist who identified a need among his patients to become more knowledgeable about their health status.

We work with trusted labs and GPs across Scandinavia and recently launched in UK working with NHS labs in London and Manchester.

WHY DO WE THINK THIS IS IMPORTANT?

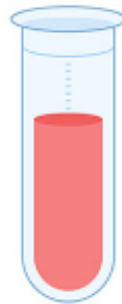

To understand how people change, you have to watch them changing

HOW DOES IT WORK?

Order your desired blood test online.

Take a blood test at a local **NHS GP surgery**.

Access your results quickly and securely online.

UK LAUNCH IN JUNE

We work with NHS laboratories to conduct blood analysis and NHS sites for blood draws

Our test packages are designed to help people track lifestyle-related dis-orders

We are live with Imperial, MRI and shortly Epsom/ St. Helier

We are in discussions with 10 other sites for next wave of roll out

Werlabs is a party to data sharing agreement with NHS Data Informatics Group and meets all NPEX and NHS data privacy and security requirements

UK LOCATIONS FOR CONSUMERS

WHY WORK WITH WERLABS

Society sees an ever-increasing burden of chronic illness

People themselves want to be more engaged in managing their own health and blood testing is a fundamental part of this understanding

The Carter report and Modernisation programmes show the need for NHS Pathology to lead changes in business models for labs

We pay labs and our phlebotomy sites for every draw and all analysis e.g. over GBP1m into Sweden national health service due to our work

Opportunity to help local communities be more proactive, intervene with their life styles while supporting NHS infrastructure at the same time

IF YOU ARE INTERESTED TO LEARN MORE OR BE INVOLVED

Contact Anil Saggi, UK Manager, anil.saggi@werlabs.com

Discuss further with NPEx team, or references at Imperial, MRI, Epsom

Visit www.werlabs.co.uk to see more

We will also have a booth at NHS England Care Expo in Manchester
11th/12th Sept - feel free to ask more of the team
